

# NeuroNexus

Empowering discovery in the life sciences

## Applications Scientist

NeuroNexus seeks to hire a scientist experienced in the field of neurophysiology that will partner with our expanding Sales and R&D teams working in the fast-growing neurotechnology research market. The successful candidate, based in Ann Arbor, Michigan, will support the increasing demands of worldwide pre-sales discussions and post-sales technical training and project consultation, both onsite and through remote consultation. NeuroNexus offers an exceptional compensation and benefits package commensurate with the candidate's background and experience.
